

DIY PROJECT GUIDE

Stocking Hanger Box

[HOMEDEPOT.COM/DIY](https://www.homedepot.com/diy)
[WWW.HOMEDEPOT.COM/STOCKINGHANGERBOX](https://www.homedepot.com/stockinghangerbox)

Duration: 45 Minutes
Difficulty: Beginner
Estimated project cost \$20
(not including tools or paint)

MATERIALS

- 1 – 1" x 6" x 8' Plywood
- 1 – 3 Pack of Heavy-Duty Coat and Hat Hooks
- 1 – Pack #6 3/4" Wood Screws

TOOLS USED

- Circular Saw
- Brad Nailer
- 1 1/4" Brad Nails
- Drill
- Measuring Tape
- Carpenter's Square
- Clamps
- Pencil
- Safety Goggles
- Sanding Block

1 MEASURE AND MARK

Using the measuring tape, measure and mark cuts on the 1" x 6" x 8' common board according to the cut list.

2 CUT

Use a circular saw to make the straight cuts on the common board.
TIP: Use sanding block to smooth any rough edges.

3 PAINT OR STAIN BOARDS

Paint or stain prior to assembly if desired.

4 ASSEMBLE BOX SIDES

Lay one 23" section down. Stand (2) remaining 23" sections next to either side of the base. Secure with brad nails.

4 ASSEMBLE BOX ENDS

Stand both 7" sections on each end of the box to complete. Secure with brad nails.

5 ATTACH HARDWARE

Once box is complete attach hooks centered on one side using 3/4" wood screws.
TIP: Use sanding block to smooth any rough edges.
